

NIA ACADEMY

ABOUT US

NIA Academy is a crucial agency under the National Innovation Agency (Public Organization), established to promote innovation capacity building and enable new-generation entrepreneurs across the country to join the economic system, make more investment, and have higher competitiveness in both domestic and international markets. Systematically ensuring the country's economic and social stability, the academy plays a role as a coordinator to build bridges between industries in terms of policy and practice to create the system and culture that are suitable for creating the innovation-driven economy responding to the country's and NIA's strategies.

NIA Academy aims to empower people to become knowledgeable so that they can foster innovations. Therefore, it believes in innovator's power within each individual, both young and grown-up. No matter what position you are in your organization, either in public, private, education, mass communication, political sectors or civil society, you are welcome to join our "INNOVATOR T.R.I.B.E, the innovator network to drive innovations"

T.R.I.B.E. Concept

NIA Academy has launched a campaign under the concept of "INNOVATOR T.R.I.B.E.", waking up "the innovator" inside you. We believe that, when a network of innovators who have innovator's mindset and are driven by innovation scatter in all parts of societies, organizations, agencies, enterprises, as well as at the country's policy making level, it can efficiently drive changes and the country's economy and society.

The academy is well-equipped with tools to help develop ideas and innovation skills, to keep up with bodies of knowledge in the technology era and the utilization of data

to adjust business to be in line with future trends, and to sharpen your skills in managing people, organizations, and relationships so that you can build networks. We also offer knowledge in using technology to build business potential and promote investment made based on financial knowledge and accessibility of supports from any organizations. Equipped with this knowledge to overcome weakness and prepare business in all aspects, entrepreneurs are motivated to realize opportunities to start and expand innovation business.

2 TARGETS
