5 WAYS TO STAY INNOVATIVE

1. INSPIRATION
   - Re-evaluate and analyze the current system for innovation
   - Brainstorm and generate new ideas

2. IMAGINATION
   - Develop a concept that is different from the current system
   - Plan and implement

3. IDEATION
   - Brainstorm and generate new ideas
   - Implement and test new solutions

4. INTEGRATION
   - Combine different ideas and solutions
   - Test and implement

5. INSIGHT / IMPLEMENTATION
   - Conduct research and analysis
   - Implement and test new solutions

Conduct a system audit and review all solutions to ensure they work
